We are a very flexible band!

Backline

We do not bring backline by default. We can bring some backline if it's discussed beforehand. We have no problem sharing our backline, or playing on another band's- or house backline.

The guitar players will play through mic'd amps. The bass has a modeler pedal, with a separate DI output for the PA. Please use this output, not the DI built into the bass head.

We will always bring:

- Peavey guitar head
- Marshall Valvestate Combo (NO separate speaker in)
- Helix pedal for bass (Separate output for PA, no mic required)
- Drum breakables

We can provide and share (when asked):

- Marshall 2x12 cab
- Hartke 4x10 bass cab + power amp
- Drumkit (1 Kick, 2 Rack, 1 Floor)
